

# Northeast Health Wangaratta and Benalla Health Pharmacy Intern 2023 (based on 2022 program)

## Orientation to NHW with Technicians & Pharmacists

0845 each morning NHW Pharmacy holds a "scrum" meeting to plan the day (focus for the day, patients planned for discharge, new admissions etc).

You will have a 10 minute morning tea break, 45 min lunch break (must begin no more than 5 hours after commencing work) and a 10 minute afternoon tea break. Respect your colleagues, don't exceed these times.

Pharmacy services are provided to wards in teams of pharmacist/technician/intern, who together look after all clinical, dispensing and operational pharmacy services for the rostered ward/s.

Intensive orientation on site is provided for all 4 interns at Northeast Health Wangaratta in your first 2 weeks, to become familiar with hospital pharmacist and technician roles and responsibilities

You'll also become familiar with i.Pharmacy software, Omnicell Automated Medication Cabinets, local ICT infrastructure such as email (Outlook), intranet, clinical handover software and videoconferencing via Microsoft Teams.

Pharmacy Interns will also be provided access to required references via Clinicians Health Channel, meet our hospital librarian, and the tutorial program will begin during this 2-week orientation period.

Enjoy!
